Experience

ABC Company – Data Science Intern

April 2020 - March 2021

- Roles and Responsibilities

Projects

Fantasy Football Modeling

- Aggregated and prepped 5 years of NFL fantasy football projection data from 6 independent sources into a MySQL database and created a fantasy football modelling system
- Worked on building a random forest model in SAS that combined the disparate sources into one projection that outperformed the mean absolute error of the next best projection by 18%

Movie Recommendation System

- Used k-nearest-neighbors in SAS to build a better movie recommendation system

Education

PES University – M.Tech in Data Science and Machine Learning

September 2018 - April 2021

GPA: 4.0

Skills

- Statistics
- Data Wrangling and Data Exploration
- Data Extraction, Transformation, and Loading
- Machine Learning Algorithms, Deep Learning
- Mathematics
- Probability
- Debugging
- K-nearest Algorithm
- Python
